"Say, Lissen"

HERE'S ONE WORD IN THE ENGLISH LANGUAGE THAT YOU CAN'T SPELL RIGHT AND THAT'S WRONG.

Mitchell Cup Likes Olds But Likes Didsbury Better

Last Thursday night two rinks from Didsbury composed of Miller skip, J. Fleury, B. Holmes and Ed. Ford, and Freeman skip, with J. Reed, Dr. Clarke and W. Derby visited Olds in quest of the Mitchell Cup. The ice was in splendid condition. Both games were very close and when the 15th end was played Didsbury was leading by one point. When the Didsbury skips went to play their last rock on the 16th end Olds lay 7 points but Freeman made a perfect shot and clinched the game, the Didsbury club winning by the score of 28-25. The Olds club regally entertained the visiting champions afterwards.

The Olds and Didsbury clubs seem to play better away from home as Didsbury have defeated the Olds club three times on the Olds ice while the Olds club have won two games on the local ice.

Crossfield was to have played on Monday night but failed to arrive. Last Saturday afternoon three local rinks journeyed to Innisfail on the invitation of that club to play some friendly games. As Innisfail have three sheets of ice the three rinks were kept busy most of the time and won four out of eight games. At midnight there was a splendid chicken supper provided, followed by speeches in which the mutual good will of the two clubs was strongly emphasized. The Innisfail club are first class entertainers and it is hoped the Didsbury club will endeavor to return the compliment.

The Innisfail club sent down two rinks on Tuesday night after the Cup and were very nearly successful in winning it. The senior rinks ended up with their scores tied at 12-12 in the 16th end but the local green rink came out ahead by five points and saved the Cup. Their score was 20-15. On the senior rink E. Freeman skipped with J. Reed, J. Hugot and Dr. Clarke. The green rink was skipped by J. Miller, with J. Fleury, B. Holmes and E. Ford. The visitors were entertained in the Rosebud Hotel after the game where the 17th end was played.

Mr. Herman Dageforde and wife who have been in Portland and Los Angeles since last summer have returned to Didsbury. Mr. August Dageforde of Portland also returned with them.

An echo of the old oil boom days in Calgary is contained in a recent issue of the Alberta Gazette which contains a notice striking off the names of The Herron Elder Gas and Oil Co. and The Mount Stephen Gas and Oil Co. from the Alberta Register of Companies.

Sudden Death of Mrs. H. W. Chambers

The death of Mrs. H. W. Chambers occurred on Tuesday afternoon at her residence in town. While she had a bad heart attack on Sunday morning she seemed to be getting over it but she passed away as stated on Tuesday. Mayor Chambers and his little family will have the heartfelt sympathy of the whole community in their sad loss. A full report will be given in next week's issue.

New U.S. Customs Requirements

The United States authorities require that on and after the 1st of April next, Customs Declaration, Form 91 B, be attached to all parcels of general merchandise (parcel post) prepaid at parcel post rates, posted in Canada addressed for delivery in the United States.

They further require that commercial invoices or statements of value be enclosed with books prepaid at printed matter rate, also in sealed parcels of general merchandise prepaid at letter rate, posted in Canada addressed for delivery in the United States.

AROUND THE TOWN

Mr. C. H. Stuart is attending the horse and cattle show in Calgary.

Mr. J. N. Paton is among the visitors at the horse and cattle show in Calgary this week.

Mr. O. Spivy is a visitor in Calgary this week and also attending the horse show.

The Westerdale Young People's Club are giving a play in the Melvin schoolhouse on April 2nd. Admission 50c. Ladies please bring lunch.

Mr. C. H. Stuart is holding a big reduction sale of his fine herd of Aberdeen-Angus cattle on April 7. His ad appears in another column, look it up.

A passing remark overheard last week: "How did you find the flour from the mill Henry?" "Fine, fine, it sure surprised us." "I told you it would. Then look at the saving."

Services will be held in the church of England on Sunday, March 30th, at 3 p. m., also Sunday April 6th at 3 p. m. Wednesday evening services during Lent at 8 p. m.

A meeting of the Didsbury Community Board of Trade will be held in the basement of the public school on Friday evening at 8 o'clock. As considerable business of importance to all in this district is concerned it behooves everyone to be present.

The Didsbury public schools are closed down this week because measles have attacked the school children in large numbers. We understand that the Olds schools are also closed down because of an epidemic of scarlet fever.

Seven major operations were performed by the local doctors at the Didsbury General Hospital in the last few weeks. Two cases were brought up from Carstairs, Mrs. Haughton and Mrs. Hemmelreich, and one from Eagle Hill, Mr. E. Sandy, and all are doing well.

IN MEMORIAM

In loving memory of Ethel Hermanson.

My heart remembers still
The dark closed lids of her,
Her lips of lavender,
Her white breasts chill.

Her little hands, her feet,
Her laugh, are things that were,
Ah death! I know is good to her
She was so sweet.

Mrs. T. Hermanson.

Wheat And Cattle Trade Of West

The future of Western Canada—and that means the future of all Canada—depends upon what the future holds for the success of farming. The success of farming depends upon remedying conditions which today operate to leave no margin of profit between costs of production and prices obtainable in world markets. The truth of these statements must be recognized by anybody who gives the subject even a superficial study.

It may be open to question whether, for some years to come until world conditions become more settled, any materially higher price for our large exportable surplus of grain and cattle will be obtainable. But the desired results, namely, a larger return for the producer, can unquestionably be secured through a reduction in costs of production and marketing.

Following the defeat of the Reciprocity Agreement with the United States which provided for the free entry of Canadian wheat and cattle into that country, the United States enacted a new and higher tariff which amounts almost to a practical prohibition of export to the south. During the war, however, Europe took everything Canada could produce and at high prices. But the war also enormously increased anything the farmer had to buy and boosted freight rates to unheard of levels, thus raising all costs of production and marketing.

While prices of grain and cattle have declined to pre-war levels, costs of labor and articles entering into the work of agricultural production, and costs of marketing, have not declined in anything like the same ratio, and with his products practically excluded from the United States, the Western farmer and livestock producer finds himself dependent upon the war-impoised, tax-burdened, currency-depreciated countries of Europe. It is little wonder that the industry of farming is in the doldrums.

Efforts have been made to improve the situation. For many years the British Government maintained an embargo on Canadian cattle, but so long as our cattle could be sent to the United States this did not so much matter, although it was a drawback and constituted a loss. Persistent efforts resulted in the British embargo being removed. What happened? The rate on cattle from Montreal to Liverpool which was \$15 a head was jumped to \$25 a head, thus robbing the Western livestock producer of much of the benefit he stood to gain through entry into the British market.

Under the stress of war conditions railway freight rates had been increased, and as one step to that end the Crow's Nest Pass agreement was suspended. In 1922 that suspension was ended and the lower rates on grain from the prairies to the head of the lakes again came into effect. But at once lake freight rates were advanced to such an extent as to largely offset the reduction in rail rates, thus leaving the farmer in a position of "as you were."

These are but two examples of conditions which are operating to retard Western progress and development. The fact that farming and livestock production are not profitable enterprises in Western Canada at the present time is not the fault of the country or of the producers. That the country itself is all right is demonstrated by a 450,000,000-bushel wheat crop last year, and by the fact that livestock is today a drug on the market. The farmers and breeders have done their part, and the country can, and does, produce. It is man-made laws, systems and corporations that are at fault. They can, and must, be remedied, the obstacles removed, freedom in trade established, the shackles struck off and the barnacles removed from transport and commerce.

The Dominion Parliament can right these abuses. It is now in session. Canada owns and operates more than one-half the railway mileage in the Dominion. Canada owns and operates an ocean merchant marine of scores of vessels. Furthermore, as Sir Clifford Sifton pointed out in his recent address at Winnipeg, the harbors of the world are filled with ships that have nothing to do and that can be rented, hired, chartered, without the slightest trouble.

The prevailing hold-up of the Western producer can be stopped at once if Parliament will but make up its mind to do it. Parliament can also, without doing injury to any other class or industry, lessen the cost of the implements essential to Western production. These simple economic reforms would quickly revolutionize the Western situation, and with returning prosperity here the wheels of industry throughout Eastern Canada would also begin to revolve and give employment as in past years.

The resulting activity and prosperity, encouraging all-round development of natural resources, would be the best of all possible immigration policies. The present policies have been tried long enough and have failed. Give the new policy a trial by removing present hampering restrictions.

The average man fails to learn a lot of things that experience should teach him.

Sound judgment doesn't necessarily make the most noise.

Judging from the conduct of some of the elders, the age of discretion is childhood.

Co-education has existed in Turkey since 1914.

A Health Secret

It is frequently claimed by physicians that nine-tenths of all human ills may be traced to neglect to keep the bowels regular and the liver and kidneys active.

The result is an accumulation of poisons in the system which cause pains and aches and give rise to such dreaded diseases as appendicitis, Bright's disease, diabetes, high blood pressure, etc.

Dr. Chase's Kidney-Liver Pills are the ideal regulators of these vital organs because they act directly on the liver, kidneys and bowels, and ensure a thorough cleansing of the system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edman, Bates & Co. Ltd., Toronto.

The Meaning of Success

Not Necessary to Acquire Wealth in Order to be Successful

Success, like everything else in this life, is a state of mind. I mean by this that one person may possess worldly goods in abundance and still be poor in spirit, while another person might have no material wealth to speak of, yet be rich in those qualities of the mind which mean the substance of wealth in reality. If all of us could bring ourselves to know this truth we could all be happier.

Success in life does not necessarily mean the acquisition of money. Success may mean a number of different things to a number of different people. To some it means contentment; to some, the accomplishment of a certain definite purpose in life; to others, money.

Money is not to be despised. There is a verse in the Bible which reads: "Money answereth all things." In a way, it does; but only in a way. One should never confuse business success with success in life. Most of all, success means achievement. We may reach our goal, or we may not. The real success lies in trying.

NERVOUS INDIGESTION

Some of Its Causes and How Relief May Be Obtained

Many people suffer from nervous indigestion. The commonest causes are worry, over-work, lack of exercise, or a general run down condition of the system. It is a disease of the nerves rather than of the digestive organs, and is corrected by giving needed nourishment to the nervous system and building up the blood.

The treatment consists largely in rest, recreation and the use of a tonic such as Dr. Williams' Pink Pills. In addition, the patient should follow a careful diet, and avoid coffee and stimulants, these being unsuitable for nervous people. As one's nerves rely for nourishment upon the blood, the latter must be built up and made rich and pure, which is just what Dr. Williams' Pink Pills do. If there is loss of weight and pallor, Dr. Williams' Pink Pills are especially helpful. Mrs. Adolphus Villeneuve, R.R. No. 2, Apple Hill, tells as follows how she obtained relief: "I was so bad with nervous indigestion that I could not digest anything I took, and as a consequence was a great sufferer. I doctored for four months, but seemed to be getting worse instead of better. I lost strength to such an extent that I could hardly go about. Then my mother came to see me, and urged me to try Dr. Williams' Pink Pills, and I followed her advice and got a supply at once. After taking a few boxes I felt my strength returning, and I continued their use, until at the end of a few months I could eat anything I desired, had regained my old time health and strength, and was in every way a well woman. I am so thankful for what Dr. Williams' Pink Pills did for me that I always advise their use when any of my friends are run down or ailing."

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Medical Science Wins

They tell of a strange case in a small Missouri town. A man complained of pains in his heel. His physicians removed his teeth, but the pains continued. They removed his tonsils, and still the pains remained. As a final resort they removed his shoe and the X-ray revealed a long-embedded needle in his heel.—Kansas City Star.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

In Ireland, where the people have a very exclusive taste in tea, few shopkeepers will buy tea which has been blended by machinery.

Speed in the sending of cablegrams has been increased from 20 to 50 words a minute by the use of mechanical relay instruments.

Minard's Liniment for Corns

Something Wrong But what does an author mean by grouping the following two facts together on one of his final pages: "Canada has nearly 300 golf clubs. Canada has over 135,000 mental defectives?" This will have to be looked into.—Toronto Star.

Minard's Liniment for Headache

W. N. U. 1513

Graduate Nurse Finds "The Perfect Remedy."

Graduate of National Temperance Hospital Tells Of Remarkable Cases Where TANLAC Has Proved Effective.

"From my long experience as a professional nurse, I do not hesitate to say I consider TANLAC the most efficient and natural stomach medicine and tonic to be had. It is undoubtedly Nature's most perfect remedy," is the far reaching statement given out for publication recently by Mrs. I. A. Borden, Seattle, Wash., a graduate of the National Temperance Hospital, of Chicago.

"I have used TANLAC often in treatment of my patients and my experience has been that for keeping the stomach, liver, kidneys and bowels functioning properly, and for toning up the system in general, it has no equal.

Tells Of Case

"About a year ago I had a lady patient who could not keep a thing on her stomach fifteen minutes, not even water. I prevailed on her to try TANLAC and after the sixth bottle she could eat absolutely anything she wanted without the slightest bad after effects.

"I had another patient who simply could not eat. I got him started on TANLAC and by the time he finished three bottles he was eating ravenously and had regained sufficient strength to return to work.

"These two instances are typical of my experience with TANLAC. My confidence in TANLAC is unlimited.

TANLAC IS FOR SALE BY ALL GOOD DRUGGISTS. OVER 40 MILLION BOTTLES SOLD. ACCEPT NO SUBSTITUTE.

TAKE TANLAC VEGETABLE PILLS.

National Debt Reduced

Total Gross Debt of Canada Now \$2,937,161,943.94

The net debt of Canada was reduced by \$4,149,495 in January over December, and by \$8,591,399 compared with a year ago, according to the January financial statement as sent out in a press despatch. Revenue increased by \$819,466 in the month and expenditure by \$2,130,091. In the twelve months there was a total increase of \$6,956,124 in revenue over the same preceding twelve months and a total decrease of \$378,345.10 in the expenditure for the twelve months ending January 31st last from the same preceding twelve months. The total gross debt of Canada on January 31, 1924, was \$2,937,161,943.94, and the total net debt on that date was \$2,311,388,604.54.

Manitoba Honey Output

Press reports state that Manitoba beekeepers in 1923 produced 3,041,712 pounds of honey, compared with 1,800,000 in 1922, and less than 1,000,000 pounds in 1921. The average production per hive was 155 pounds.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Though the Chinese have a large alphabet, they have only about 15,000 words, the same word taking on different meanings according to the tone in which it is said.

More Settlers From Hebrides

Plans have been completed for the settlement in Canada of another group of Scottish immigrants from the Hebrides in the spring. They will go to Western Canada, and there is also a move on foot to send some of them to Queen Charlotte Islands, off the coast of British Columbia.

Mother! Give Sick Baby "California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child

Even constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

Paving Blocks From Tar Sands It is understood that arrangements have been made for the financing of a half-million dollar plant in Edmonton for the manufacture of paving blocks from the tar sands of Fort McMurray.

The heart of a flirt resembles a crowded car—there is always room for one more.

When a girl marries in haste it's sometimes her last chance.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature of

W. H. Fletcher

You Can Stand on this Wash Board

Our SMP Pearl Ware Wash Board is so strong, tough and durable that a full-grown man or woman can stand on it without doing the rubbing surface or any part of it the least harm! The enameled surface won't chip, flake or peel off. Think of the wear there is in such a wash board! There is the same wearing qualities in all articles in SMP Pearl Ware. Try out the wash board and be convinced.

FEDERAL INQUIRY IS EXPECTED IN HOME BANK CASE

Ottawa.—The Home Bank case is being considered by the government in anticipation of the subject being one of the first broached in parliament. When it is, an announcement of policy will be made. In the meantime all documents that bear on the case and its history are being gathered up and digested.

There is reason to believe that the government does not, at this juncture, plan to go to the aid of the affected depositors, but rather takes the position that an inquiry into all the facts of the case, antecedent, as well as the immediate, causes, should be a preliminary to a decision whether or not anything is to be done in the matter.

Under the auspices of the Bankers' Association, a curator made an investigation, but while this disclosed the condition of the bank at the time of suspension, there was little that went behind and uprooted basic transactions. Meanwhile the record has been added to by statements from the former minister of finance and others, all of which is taken to amplify the demand for an inquiry. What form it will take is not certain. Parliamentary investigation might turn out to be a political one, and is not commonly favored, but some sort of inquiry is likely to be undertaken.

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing The Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

Electoral Reform Bill

Winnipeg.—By a vote of 29 to 12, the Legislature of Manitoba this afternoon gave second reading to the bill which proposes to provide for the transferable vote or preferential ballot in all constituencies in the province except Winnipeg, where the system of voting is by proportional representation.

Backache Better Rheumatism Gone

Nova Scotia Man Praises Dodd's Kidney Pills

Mr. J. A. Boutillier feels better now than he has done for a long time—thanks to Dodd's Kidney Pills. Aspotogan, N.S. — (Special). — "I have used Dodd's Kidney Pills and they have helped my back. My rheumatism has left me and I feel better than I have done for a long time. Dodd's Kidney Pills are all right."

This statement is made by Mr. J. A. Boutillier, aged 86, well known and respected here. Backache, headache, rheumatism and other aches simply mean impurities in the blood. Otherwise you couldn't have such troubles. Purify the blood by taking Dodd's Kidney Pills and see how quickly they go.

Every sufferer who tries Dodd's Kidney Pills is delighted with the comforting relief that they so quickly create. Thousands are buying and using this remedy solely through the recommendation of their friends who first discovered their wonderful relieving and healing properties. Insist on having Dodd's Kidney Pills.

Custom's Declaration Necessary

Washington.—The post office department has announced that after April 1 next, parcel post packages mailed in Canada and addressed to the United States, or mailed in the United States and addressed to Canada, must be accompanied by a customs declaration.

W. N. U. 1513

Would Probe Livestock Epidemic In Britain

London.—Noel Buxton, minister of agriculture, moving, in the House of Commons, the second reading of an amendment to the Diseases of Animals Act, with a view to the prevention of another serious outbreak of foot and mouth disease such as has recently affected many farms in this country, announced that it was proposed to appoint a committee for scientific research into the foot and mouth disease. Sir Charles Sherrington, president of the Royal Society, will be chairman of the committee, Mr. Buxton stated.

Pensions For Widows

Plan May Be Possible Later, Says Philip Snowden

London.—A private member's motion to provide state pensions for widows with children, or mothers whose family bread winner is incapacitated, drew a sympathetic reply in the House of Commons from Philip Snowden, chancellor of the exchequer, who, however, said the government at present was unable to provide the necessary £20,000,000 annually, which would be required to finance the scheme, on account of the other schemes of social reform to which the government was committed. He declared that if given time to overhaul the national finances, this would be one of the first measures to which he would apply the resources which might then become available.

Closing of Rural Schools

A Government Correspondence School Is Suggested in Manitoba

Winnipeg.—A government correspondence school system, through which elementary education could be given should be instituted in Manitoba in view of the closing of so many public schools, according to Mayor R. J. Swain, of St. Boniface. This would assist greatly the children now without schooling and might become a permanent institution, if real economy, which he believed would be the result, could be obtained.

Today, there are 131 rural schools closed, affecting approximately 3,000 children, according to latest official figures. A system could be inaugurated similar to that of the large correspondence schools and a nominal fee could be charged to cover expenses for books, papers, etc.

Dine With Royalty

British Labor Leaders Attend Dinner Given in Honor of Their Majesties

London.—Premier Ramsay MacDonald, his daughter Isabel; John Robert Clynes, Lord Privy Seal and Mrs. Clynes, were among the guests invited to meet the King and Queen at a dinner given in honor of Their Majesties, by the Earl of Granard, newly appointed King's Master of Horse and his Countess, nee Beatrice Ogden Mills. The guests included the Duke of Roxburgh and his Duchess, and the Earl of Ancaster and his Countess. The Earl of Granard sat at the right of the Queen and Premier MacDonald at her left.

Sapiro Denies Charges

Brands As False, Statements Appearing in Passonneau Correspondence

Regina.—Before an audience of 1,200 people here, Aaron Sapiro, co-operative marketing expert, categorically denied the Passonneau charges as published in the Regina Leader and other newspapers. Sapiro stated that an action for libel would be instituted against the Leader unless an apology was made. A further action was pending against The Chicago Packer for publication of the same correspondence.

Introduce Liquor Vote Bill

Toronto.—Hon. W. P. Nickle, attorney-general, introduced a bill in the house to provide the machinery for taking a vote of the people on the liquor question. "The bill implements the promise to provide a vote if and when the government decides to submit such questions to the people," said the attorney-general in explaining his bill.

DYSPEPTIC

Food Does You No Good

Half the time you're afraid to eat; your tongue is coated, mouth tastes bad, stomach is bloated. If you want to get well, stop using dyspepsia tablets and go to the source of the trouble before it is too late. Strengthen your stomach, cast out the bile, regulate the bowels—do this, and dyspepsia will be no more.

For your condition the best prescription is Dr. Hamilton's Pills, which are made specially for the stomach, kidneys and liver.

Dr. Hamilton's Pills Aid the Stomach

Get Dr. Hamilton's Pills today, 25c per box, 5 for \$1.00, all dealers, or The Catarthozone Co., Montreal.

Ductless Gland Study

St. Louis.—Science is making such headway in the study of the ductless glands that it is believed control of these glands will be the next achievement. Prof. A. Bledley of Prague, eminent specialist on the endocrine system told the convention of the American Congress of International Medicine here. The ductless glands constitute the endocrine system.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot callouses, without soreness or irritation.

Must Observe Moslem's Sabbath Constantinople.—Police authorities of Constantinople have issued an order directing all Christian institutions to observe the Moslem Sabbath, which falls on Friday. Schools refusing to close on Fridays will be heavily fined.

WET FEET

Lead to colds. Avoid chills by rubbing with Minard's Liniment. The great preventative.

Plan to Bring Many British Women to Canada

Montreal.—So successful has been the immigration of British women to Canada during the past year, that the special women's branch in London, England, of the Canadian Pacific Railway will increase its work during the coming year, beginning with the resumption of navigation to Quebec and Montreal. An announcement was made to this effect by colonization and steamship officials, who said parties of British women and girls would be arriving regularly throughout the coming season. About 20,000 women from the British Isles came to Canada last year, or about half the number of men.

Failed to Collect Taxes

Possibility of Ventilation of What Is Termed Culpable Neglect

Ottawa.—Certain members of the government intimate that there is a possibility of a ventilation of what they claim was the culpable neglect of the two previous administrations to collect income and business profits taxes, much of which will be lost to the country through such neglect, the Riordan case being given as an instance. It is intimated that a commission may be appointed to investigate some features of the methods by which such taxes were collected, and it is stated that the total number of assessments for the war profits tax was about 27,000, of which several thousand still await final adjudication and settlement. In no case has an appeal been taken to the exchequer court from the decisions of the taxation branch, the inference drawn being that the decision was always satisfactory to the firm assured.

Average Return to Farmers Higher

Edmonton.—That the average cash return per farm in Alberta in 1923 was actually \$18 higher than the average for the years 1918, 1919 and 1920 when grain prices were at their peak, was the striking statement of John M. Imrie, managing director of the Edmonton Journal in an address to the Commercial Club of the University of Alberta.

The Druggists All Agree That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor, and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for "Putnam's," 25c everywhere.

CLAIM ESTIMATES TO BE CUT BY MANY MILLIONS

Ottawa.—A very substantial saving in public expenditures will be indicated when the estimates for the coming fiscal year are brought before parliament at the coming session.

The government has been scrutinizing the projected outlays for the past two months, and many millions, it is estimated, are being lopped off with the idea of balancing revenue and expenditures. The expense of civil government or, in other words, the civil service, will show a considerable reduction, although not so much initially as later in the year, when projected reforms are put into effect. Public works estimates are being cut to the bone, apart from carrying on works already under contract, and necessary items on maintenance.

In the railway department, the betterment of some twenty millions in the Canadian National Railway's finances will cut down, correspondingly, the inroad on the public exchequer. Items voted last year, which appear this time, are in aid of the provinces, for agricultural instruction, highways and housing. Millions estimates latterly have been kept down to the minimum, but this time again, considerable more is shaved off. Through the refunding of loans during the year a substantial saving in interest account will also be shown.

The aggregate reduction are not yet computed, but practically every department is affected and the total will be many millions. When this year's budget comes down it will either be balanced or be very close to equilibrium between outlays and income.

CONVENTION OF SCHOOL TRUSTEES AT SASKATOON

Saskatoon.—More than 2,000 delegates were in attendance at the Saskatchewan School Trustees' Association convention here, and great interest was manifested in the proceedings.

"As a pioneer province the people of Saskatchewan have every reason to be proud of the facilities for education provided for the 178,314 pupils now attending our schools," said J. F. Bryant, president of the association, in his annual address.

"The task of the department of education in providing school accommodation to keep pace with the rapid settlement of the province has been enormous," continued Mr. Bryant. "In 1910 the population of Saskatchewan was 91,279. Today it is in the neighborhood of 550,000. In 1905, when Saskatchewan was made a province, there were 894 school districts. Today there are 4,579 school districts with 5,731 school rooms in operation."

When we think of the rapid settlement of the province, the pioneer conditions and the periods of general depression, and when we consider that most of the people started on the homestead with little capital, we cannot but be proud of what we have already achieved and of the determination of our people to give their children a good education."

Dr. Walter C. Murray, president of the University of Saskatchewan, spoke on "The High School for the Country," and described conditions as they appeared with regard to the cry for high school education in rural districts while he was acting in the capacity of chairman of the royal commission appointed to make a general survey of the educational system of Manitoba.

The need for more general planting of fruit and shade trees and shrubs throughout Western Canada was emphasized by Theodore A. Torgeon, president of the Northern Nurserymen's Association and managing director of the Prairie Nurseries, Estevan.

John W. Dafeo, editor of the Free Press, Winnipeg, spoke on "My Impressions Overseas." Mr. Dafeo narrated his experiences in England while attending the Imperial Conference last year, and also told of his visit to the continent.

J. Reid, president of the Minnesota Farm Bureau Federation, spoke on "Transportation Problems and Deep Waterways." He reviewed in detail the costs of the present transportation of wheat and other products, then pointed to the saving that would be effected by a water route from the head of the lakes to the seaboard.

A Swiss inventor claims to have produced a typewriter which will automatically type words as they are dictated to it by the human voice.

MRS. MARY GRAY

CANADIAN MOTHERS, YOU SHOULD BE HEALTHY AND HAPPY!

Vancouver, B.C.—"Motherhood left me a physical and nervous wreck. I was so weak I could scarcely get around and was too nervous to sleep. I had headaches and backaches all the time and distressing pains in my side—my health was entirely gone. I doctored but got no relief to speak of until I began taking Dr. Pierce's Favorite Prescription, and before I had taken all of one bottle I was much improved, and in time I was completely restored to health. Have had two fine, healthy children since. Had it not been for Dr. Pierce's Favorite Prescription I don't know what I would have done."—Mrs. Mary Gray, 733 Homer Street.

What Doctor Pierce's Favorite Prescription has done for other mothers, it will do for you. Get it this very day from your neighborhood druggist, in either liquid or tablet form, and write Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for free, confidential medical advice. Send 10 cents to Dr. Pierce's Laboratory, Bridgeburg, Ont., if you wish a trial package of tablets.

WHAT'S IN A NAME?

"What's in a name?" It is a
question often asked, but seldom
fully answered. Some people would
say there is nothing in a name, that
the nature of a thing is not the least
changed by the name attached to it.
There is some truth in the statement
and yet in another sense there is a
great deal in a name. When it be-
comes identified with a person it
takes on form and substance, and
whenever mentioned, awakens cer-
tain feelings. The destiny of na-
tions has been decided by a name.

The pages of history are lumin-
ous with the names of first magni-
tude. In fact, the history of na-
tions seems to revolve around dom-
inating personalities. When one
thinks of Israel, he thinks of Moses,
David and others. When he thinks
of Greece, he thinks of Socrates and
Aristotle; of Rome, the Caesars; of
Britain, Cromwell and Gladstone;
of the United States, George Wash-
ington. If he turns to poetry he
mentions Shakespeare; to music,
Mendelssohn; to art, Raphael. Men-
tion any phase of life and immed-
iately some personality looms up
who commands our reverence for
exceptional ability, for the results
achieved and the lofty virtues ex-
hibited.

But there is a name in the world
which outshines all others, as the
brilliance of the sun outshines the
twinkling stars, and which fills the
whole world with the radiance of
its beams. It is the name which is
above every name, and before which
every knee must bow: the name of
Jesus. As Dr. Frederick Noble, of
Chicago, once said: "In moral pur-
ity, in spiritual insight, in capac-
ity to reveal men to themselves and
to disclose God to the world, in
wisdom, in wealth of love, in power
to cleanse defiled hearts and ad-
vance souls in righteousness and
mold society after an ideal standard,
Jesus of Nazareth stands out by
Himself alone." These others were
human, but Jesus, though perfectly
human, was also divine.

The name of Jesus is and will ever
be the most transcendent name the
world will ever know. Christ pub-
lished no book, made no scientific
discovery, generated no army, paint-
ed no masterpiece, composed no orat-
orio, and yet His name stands tran-
scendent in art, in literature, in mus-
ic and in every other realm of life.
He stands before the world unrival-
ed. His name stands for His nat-
ure, His character, His love, sacrifice
and service. In all these respects
He is transcendent. His name stands
for the highest reaches of spiritual
knowledge and the ofttest disclos-
ures of spiritual truth. He reveals
God to Man; He responds to the re-
ligious instinct of the soul with a
revelation from heaven. He is God
manifested in the flesh, and because
in Him dwells the fullness of the
Godhead bodily. He is given a
name which is above every name.

The real meaning of Jesus' name
and the ministry associated with it
were made clear to Joseph and Mary
when the angelic messenger said:
"Thou shalt call His name Jesus,
for He shall save His people from
their sins." This was His special
office, and this distinction was pre-
pared for Him before the world be-
gan. He came to save mankind from
the guilt, the defilement and the

dominion of sin. The Jews of His
day failed to grasp this truth. Their
minds were concentrated on an ex-
ternal and material salvation. They
longed for freedom from the Roman
yoke, but were not so much concern-
ed over the spiritual tyranny which
kept the soul in bondage.

The supreme need of mankind to-
day is not national freedom, nor the
realization of national aspirations,
but the redemption of the individual
souls of those who make up the

Advertise Where Your Customers Are

It seems elementary that sales energy should
be concentrated in this district where the
goods you have to sell are purchased.

The Pioneer offers you 1200 good reliable
readers in the vicinity that are willing and
do buy immense quantities of merchandise.

They have been educated to buy from those
firms that are not afraid to quote their mer-
chandise through advertisements and you
can't hold them responsible for doing bus-
iness with firms who are progressive enough
to use the force of publicity. Be honest,
tell the truth and your advertisement in the
Pioneer will bring you business too.

To get our rates all you have to do is to ask.

Do it Today or Telephone No. 12
and a Representative will Call.

CONTINUED ON OTHER OUTSIDE COLUMN

nation, from the guilt, defilement and the power of sin. No human power can do this. It is not obtained by human governments or educational systems. Christ alone can cleanse the soul, endue a man with moral strength, fill his thoughts and feelings with holy aspirations and guide his life along the main currents of Christian service. It is because of the power of Christ's name in redeeming men that He goes forth with conquering strength and will "reign until He has put all enemies under His feet."—Calgary Herald.

BALIFE'S SALE

THURSDAY, APRIL 3rd, 1924.

Under and by virtue of a Chattel Mortgage given by Joseph Howard to Robert S. Wadell and to me directed against the goods and chattels of Joseph Howard named in the said Chattel Mortgage, I have seized the following goods, namely:

Two bay geldings, wgt. about 1450, about 8 years old; Black gelding, wgt. about 1500 lbs., white star on forehead; Black mare, wgt. about 1500, about 8 yrs. old; 2 Black mares matched weight about 1200 lbs., about 9 years old; Brown mare, white strip on face, weight about 1500 lbs., about 6 years old; 2 Brown mares weight about 1500 lbs., 9 or 10 years old.

Wagon, 3 1/2 in.; 3 Sets of harness; Pair of bobsleighs; P. and O. 14 in.; 16 inch bottom-sulky plow; Set of iron harrows; International disc; 8 ft. ELINOR MARSDEN ELIOT
Author of "My Canada," and Other Stories
Published by Special Arrangement with the Author

(Continued)

No morning passed without agent after agent coming to the door with something to sell, and my heart ached for them, for in so many cases one could see plainly the evidences of actual need. One night when we were at dinner a man came asking for food or money—every bite I swallowed seemed to choke me; even if he were an imposter there must have been many who were not.

And, saddest of all, the morning I spent in the office with Maudie, a girl came looking for work, a girl not more than twenty, not dressed warmly enough for the time of the year but carrying herself gallantly. She had, she told Maudie, put an advertisement in the papers, and answered many others, but without success. And now she was going from one office to another, on the chance of picking up something. She was far from home, and she did not have the price of a railway ticket. "And besides," she explained, "the folks at home do not know that I was let out. Dad has no crop this year and I can't ask him for help so long as there is a chance of my finding work."

How Maudie drew all this out I do not know, but in any event it was a lucky day for that girl when she walked into the office of Jones & Jones, and one shudders to think of what might have happened had Maudie not taken her up. Work had to be made for her, but the girl never knew that her pay for indexing architectural magazines and clippings came out of what Maudie calls, with a crooked smile, her "trousseau fund."

If I have ever given anyone to understand that Maudie, because she is not a shining light in society, is not the dearest and best and most unselfish girl that ever lived I wish to take it back now, and to put it on record that she has developed into one of the finest and most helpful women it has ever been my privilege to know.

And Leslie Ormond is one of the most discerning of men.

Maudie told me all about her poor little romance the night after my first visit to Deer Lodge.

"It was much as I had surmised, even to Maudie's inability to see that what she was doing was anything out of the ordinary. To her the only wonder

MRS. MISENER'S ACHES AND PAINS

Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branchton, Ont.—"When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctored for several years without getting permanent relief, when I started to take your medicines."—Mrs. GOLDWIN MISENER, Branchton, Ont.

Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments of Women." O

W. N. U. 1513

was that Leslie should have grown to care for her as he did, it was merely a commonplace that she should give him her whole-hearted devotion.

Though I had been in a measure prepared for a great change, Leslie's face haunted me for hours. I saw him first, as it happened, on one of his bad days when, weary after a sleepless night, he had scarcely the strength to speak to me. The second time I went to the hospital he was much better and I found him the old jolly Leslie, interested in all that I could tell him about the members of our old circle, teasing Maudie, and almost making us forget his pain-tortured eyes and whitening hair. The contrast between him and Maudie was startling, and it came to me with a flash of insight that she actually gave him of her fine, wholesome strength as she sat, taking little part in the conversation, where he could see her without turning his head. It was like something one reads about, not quite canny. That he was almost childishly dependent on her was evident, even through all his nonsense. That more than anything else showed how broken he was, for in the old days he had been more than a trifle autocratic—a young man rejoicing in his strength to an extent that Margaret Anne had always somewhat resented.

They were, Maudie told me, properly engaged, though Mother thinks I am foolish to call it that and more foolish still to think of marrying him.

"You do think of it?" I asked, seeing that Maudie expected the question. "Yes," was the reply. "He is beginning to talk of going home to for the end. If the doctors decide that he may be moved with safety I shall go with him. He wishes it, and it is all that I can do for him."

I had tea one afternoon at the Clarendon with Mrs. Fenwick, a very happy and prosperous-looking Mrs. Fenwick who was, however, most eager to hear all my news and not at all loathe to confess that she would be glad to see the 1st of May.

"My old lady is a dear," she said, "and I am taking a really miserly pleasure in my savings account. But you may tell Gwen that I'll be home in time to look after her—all the money in the Bank of Montreal could not keep me here once spring comes."

Not so pleasant as my chat with Mrs. Fenwick was my encounter with Lilah Armstrong, whom I met one morning in Eaton's. I was provided with a perfectly good excuse for not accepting her invitation to dinner the following night, for I had every minute engaged, but she insisted that we should go up to the Grill for a cup of tea. I could not refuse, though I felt sure that what she desired was not so much my company as the opportunity to learn the result of her summer's fun.

Naturally I took a wicked satisfaction in talking around what she wished to hear until in desperation she came to the point herself.

"I suppose Jim Cameron told you that he had come to see me when he was passing through the city," she said.

"No," I replied, "he does not write to me."

I did not think it necessary to tell her that he had written to Murray two or three times.

"I did not think he would have the nerve to come," she went on. "When I asked him to call if he was ever in town I did not think for a minute that he'd do it. It was rather awkward, too, for I had other company that evening."

"Jim would naturally think that you meant the invitation after you had been so friendly last summer," I said.

Lilah shrugged her shoulders. "A girl has to be amused," she said, "and I love to plague Jean. Ever since we were little girls that prim, dignified way of hers has raised the very Old Nick in me. I wonder if she and Jim will make it up now that I am out of the way?"

The last sentence was more than I could stand.

"Did it ever occur to you," I asked, "that Jean might not feel inclined to take back what you have spoiled? Jim never was good enough for her, and after his allowing you to make such a fool of him I would not blame Jean if she refused to have anything more to do with him. She is too fine and sincere herself to suspect the truth—that Jim's apparent infatuation was nine-tenths your doing—and if she ever finds it out I hope she will be too proud to forgive him."

"What a fuss over nothing," remarked Lilah calmly. "I'm sure I never wanted him, and if Jean did she should have kept him. It's all in the game, and if she doesn't know the rules she shouldn't play."

"She does not play," I said, "it was you who did the playing—you and poor, hot-headed Jim. He, I am certain, thinks as much of Jean as he ever did, it was just because he was jealous of Mr. Macleod and resentful of Mrs. Mowbray's disapproval that he fell in with your idea of amusement. And if he isn't thoroughly ashamed of himself by this time I do not know Jim Cameron."

"Well," Lilah broke in flippantly, "it's nothing to lose one's temper over, is it?"

I picked up the bill, paid it, and got away as quickly as I could, sizzling inside, as Murray describes it. How that girl can be Mrs. Mowbray's niece and Jean's cousin is more than I can understand.

CHAPTER TWENTY-FOUR

Maudie and Mrs. Jones both urged me to stay with them for another week, but nothing on earth could have induced me to change my plans. It was not that I had not enjoyed my holiday to the full, but I was so overjoyed to have found my feet that, to use a very funny metaphor, I wanted to try them at once.

And this is what I had discovered:—That Winnipeg and Herrington's Hope each had something for me that the other could not give, that while there was a deep satisfaction in the very atmosphere of the city streets the memory of our little home in its quiet beauty tugged at my heart, making me realize that in Murray's dream of a country home from which we might occasionally share the advantages of the city there lay the solution for people of our sort.

I loved the casual contact with humanity that the city afforded, the man-made beauty that carries its own appeal, the sense that one is a part of all human endeavor. But I hated the crowded houses, the cruel contrast of rich with poor, the shallow frivolity and striving after amusement that covered so much of discontent and disappointment. After being away from the city for a while I had brought a new point of view to bear upon it, seeing things that I had never seen before, and it seemed to me that, laying aside non-essentials, one could be equally happy in the country—happier if Murray and the twins were there!

I said something of the sort to Maudie and she nodded understandingly. "It is what is inside and not what is outside that counts, isn't it?" she said. "We are all restless these days, so restless that only a few of the wisest people know what they really want. That was why I enjoyed my visit at Herrington's Hope so much, you and Murray were so happy and contented, and so hopeful for the future, that I felt rested all over."

(To be continued)

Had A Weak Heart Was Very Nervous For Three Years

Miss Jessie Peterson, Zealandia, Sask., writes:—"I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me."

For nearly three years I was very badly run down, had a weak heart, and was so nervous that sometimes I would almost faint away.

I heard of many people who had recommended your Heart and Nerve Pills, so I decided to give them a trial. After I had used two boxes I found they had done me good, and after having taken five boxes I was completely relieved.

I cannot recommend your Pills enough, and I would advise anyone having a weak heart or troubled with nervousness to use them."

Milburn's H. & N. Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Estimates place the total population of the world at 1,500,000,000.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volume for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

There are twenty-two auto stage lines longer than 100 miles in California.

Widespread Sale of Tanlac

Consistent Advertising in Newspapers Given Large Share of Credit for Phenomenal Success

Atlanta, Ga. — (Special). — International Proprietaries, Inc., manufacturers and distributors of Tanlac, have announced that the year just closed was one of the most profitable ones in the history of the company. At the same time they announced that the sales of Tanlac had passed the 40-million bottle mark.

Executives of the company attribute the great success of Tanlac to three things: Merit of the tonic, co-operation on the part of wholesale and retail druggists, and a consistent advertising campaign, the greater part of which was concentrated in newspapers.

During the past four years this company has spent over \$1,000,000 per year in advertising. Plans for 1924 call for an increased appropriation. Additional newspaper space will be used and additional papers added to the list of 7,000 now used.

Tanlac was first introduced in America over eight years ago. It immediately attracted attention as a reconstructive stomachic tonic and the demand was phenomenal from the first. Gradually Tanlac was introduced into every state in the union and to Canada, Mexico, Cuba and Porto Rico.

During the latter part of the year three manufacturing laboratories have been erected in South America to care for the business there. These are in addition to plants operated in America, Canada and Mexico.

"The year just closed has been a most successful one for our company," said D. R. Millard, Vice-President and General Manager. "We attribute the record breaking year to three principles: The proven merit of our tonic; the splendid co-operation of our jobbers, and the retail druggists who recognize that it pays to handle advertised goods; and last, but not least, to a systematic advertising campaign. We are firm believers in newspaper advertising and the great bulk of our appropriation was spent for newspaper space. We use some 7,000 newspapers in this country and Canada at present."

"We have recently completed a survey of business conditions throughout the country and believe that 1924 will be a prosperous year, not only for our company, but for other business as well."

"We have made our plans for increased business and have adopted an advertising appropriation that will be one of the largest in the country. Our faith in newspaper advertising is based on experience. We have passed the experimental stage and we do not hesitate to place our okey on newspapers as the best medium for advertising our product."

Gold From the Air

Aeroplane With Its Precious Cargo Makes Forced Landing

One of these days it may rain gold. A French commercial aeroplane, which left Crocydon with 560 kilograms of gold (ingots and coins), was forced by bad weather to come down at the emergency landing ground at Polx (Somme).

The gold, which was being dispatched by a London bank to Switzerland, says Reuter, was sent on to Le Bourget by motor car, where it passed the customs in the ordinary way.

Eight aeroplanes have flown from Dakar to Bamaku in West Africa. Six went on as far as Timbuctoo, in the Sahara.

This was altogether a journey of 1,400 miles, and five halts were made.

William Henry Harrison was the oldest man chosen for the presidency of the United States, being sixty-eight at the time of his inauguration in 1841.

Cancer

GREAT SUCCESS OF CANTASSIUM TREATMENT

A well-known London Surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that everyone may learn The Real Cause Of Cancer a remarkable book has been specially written.

This book will be sent free to patients or anyone who is interested in the most successful method of fighting "THE CANCER SOURCE."

The following is a list of the chapters:—

1. The Limitations of Surgery.
2. Some Doctors Oppose Operations.
3. What Cancer Is.
4. Why the BODY CELLS BREAK DOWN.
5. Injurious Cooking Methods.
6. Common Errors in Diet.
7. Vital Elements of Food.
8. Medical Endorsements of Our Claim.
9. The Chief Minerals of the Body.
10. The Thyroid Gland.
11. Age When Lime Begins to Accumulate.
12. Potassium Causes Lime Excretion.
13. Great Value of Potassium.
14. Parts of Body Liable to Cancer.
15. Parts Which Are Seldom Affected.
16. How a Doctor Can Help.
17. How to Avoid Cancer.
18. Death Rate from Cancer.
19. Arterial Sclerosis and Old Age.
20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case-reports, proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

To Revive Trade

Purchasing Power of Farmers Must Be Restored at Once

That there can be no great industrial revival until the farmers' purchasing power is restored by a proper balance of commodity prices, was the opinion expressed by President J. L. Stansell, of Staffordville, Ont., of the Canadian Breeders' Association, in his address at the annual meeting of the association, in Toronto. This restoration, he stated, may involve a lowering of transportation costs and a lowering of prices of all goods that ordinarily find a market on the farm.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

During the past year 1,700 separate broadcasting programmes, averaging five hours each in length, have been transmitted from stations in Great Britain.

Canada's Standard Smoke

BRIER

TRADE MARK

REGISTERED

GOOD home-made bread has always been the chief food of the earth's sturdiest races. None of the breakfast foods or health foods can equal bread in nourishment. Good bread is the most digestible food as well as the cheapest.

ROYAL YEAST CAKES

WORLD HAPPENINGS BRIEFLY TOLD

The committee of cardinals which has been dealing with the proposal to erect a monument to Pope Benedict XV. has decided definitely to place it in Saint Peters.

It is announced Sir Laming Worthington-Evans, who was secretary for war in the Lloyd George government, has been appointed editor in chief of the Financial News.

Washington has a new sensation in the disclosure that four of Uncle Sam's first line battleships are in such a decrepit condition that it is considered unsafe to operate them at a speed of more than 12 knots.

J. P. Morgan has announced that as a memorial to his father, the late J. Pierpont Morgan, he has turned over his magnificent library, its valuable contents and the ground upon which it stands to a board of trustees, who are entrusted with its maintenance in perpetuity for the use of scholars from all parts of the world.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Alberta Butter Production
Alberta's butter production last year was 18,500,000 pounds, or 2,000,000 pounds more than in 1922, according to reports presented at the annual meeting of the Alberta Dairymen's Association.

ITCHY PIMPLES ALL OVER FACE

And Shoulders. Burned Badly. Cuticura Heals.

"My trouble started with pimples breaking out all over my face and shoulders. The pimples were large and red and feasted, and itched and burned so badly that I could not sleep. They were very sore and my clothing aggravated them."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample which helped me. I purchased more, and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) William C. Green, 39 Peabody St., Buffalo, N. Y.

W. N. U. 151A

Suicide Or Not?

Proper Diet is Essential to Good Health and Long Life

Life is admittedly a highly valued possession and when a case of suicide comes under our notice it is customary to discuss such an unpleasant matter from our thoughts with, perhaps, a fleeting regret for the insane folly of the fellow creature who has acted as we could not under any circumstances.

Thus, living in a fool's paradise, the civilized world deludes itself and, unconsciously, fully twenty-five million civilized men and women are steadily preparing themselves to fill suicides' graves.

Reader, in and for your own purely selfish interest, ask yourself if you, individually, are one of that formidable number, but don't answer the question until you have mentally digested the following. You may, or may not, be a heavy meat eater, but has it ever occurred to you that if the Creator had intended you to live on a flesh diet, you would not have been provided with your alimentary canal which is more than three times the length of that which has proved sufficient for all the carnivora or designedly flesh-eating beasts since their creation?

Use common sense in the matter of your diet hereafter to repair the injuries already unwittingly inflicted and you will soon find Nature willing and ready to co-operate with your efforts.

Reader, with the above facts before you, it now rests with your own conscience to adopt or reject the suicidal route and, if you wish a wee bit of help along the road your heart tells you to travel, the writer will gladly and freely mail you a sane dietary if you write for it to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Women Can Dye Any Garment, Drapery

Dye or Tint Worn, Faded Things New for 15 Cents

Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with "Diamond Dyes" even if you have never dyed before. Druggists have all colors. Directions in each package.

Bald-headed criminals are very rare, say those who have made a study of the subject.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood, have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right, and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Half-Ton Shell

New Gun Which Can Fire It 23 Miles

A new 14-in. gun capable of hurling a 1,560 lb. armour-piercing projectile 23 miles is reported by Reuter's Washington correspondent to have been constructed in the United States. The total weight of gun and carriage is 700,000 lbs. (300 tons).

"Big Bertha," the gun with which the Germans bombarded Paris, had a range of 75 miles, but the projectile only weighed 261 lbs. The total weight of the gun was 142 tons.

The most obstinate corns fall to resist Holloway's Corn Remover. Try it.

* Sure Sign of Prosperity

People in Alberta are reported to have been putting their money into Provincial Government savings certificates at the rate of \$20,000 a day. It is reported, that the total now amounts to \$4,631,000, of which \$2,555,000 was deposited in 1923.

Minard's Liniment Relieves Colds

Stops Coughs, Colds Sore Throat in a Night

Think of a medicine so healing, so balsamic and, antiseptic that every trace of cold and soreness goes before it.

"CATARRHOZONE" is so certain in catarrh, bronchitis, that every case is relieved promptly. Experiment no longer—success is guaranteed if you use CATARRHOZONE—a veritable death to catarrhal diseases, because it destroys their cause and remedies their effects.

Delightful and simple to use, quick to act, sure in results. Better get CATARRHOZONE today. Large size, sufficient for two months' treatment, price \$1.00; small size 50c. At all druggists. Refuse a substitute for CATARRHOZONE. By mail from The Catarrhozone Co., Montreal.

C.P.R. Improvement Programme

Railway Making Preparations For Anticipated Growth of Traffic

"In confident anticipation of a large volume of immigration in this and succeeding years, with a consequent increase in production and growth of traffic, the Canadian Pacific Railway will this year proceed with its usual programme of improvements," D. C. Coleman, vice-president in charge, western lines of the railway, has announced.

"To provide service for the new terminal elevator business now being erected at the head of Lake Superior, additional yard tracks will be constructed in Fort William and Port Arthur.

"To permit the phenomenal grain movement of 1923 to be equalled, and if possible surpassed in succeeding years, considerable additions will be made to the terminal tracks at Ignace, Kenora, Outlook and Wynyard.

Extensions will also be made to the existing trackage at Vermilion, Muriel, Fort Garry, Austin, Virden, Minnedosa, Johnston, Bredenbury, Antler, Tuxford, Cluny, Kirkpatrick, Kneehill, Milk River, Spring Coulee, New Dayton, Calgary, Coleman, Banff, Temple, Duthill, Misku, Ottertail, Misko, Salmon Arm, Notch Hill, Grindro, Okanagan Landing, Beavermouth and Vancouver. In addition, one new siding will be constructed on the Varcoe subdivision, three on the Broadview subdivision, one on the Indian Head subdivision, and one on the Kimberley subdivision.

"New station buildings will be erected at Lac du Bonnet, Balmoral, Gainsborough, Instow, Spalding, Govan, Kirkcaldy, Chin, New Dayton, Sylvan Lake and Bonnington.

"To provide for the comfort of employees, a commodious, modern Y.M.C.A. building will be erected at Ignace. Improved sleeping quarters will also be provided for enginemen at Moose Jaw, Assinibola, Frank, Bow Island, Coutts and Aldersyde. To accommodate maintenance - of - way forces, 25 houses will be erected—for occupation by section foremen and pumpmen.

"Six new stockyards will be erected and a number of existing yards will be improved and extended.

"The usual programme of bridge building and replacement, ballasting, tie renewals, and rail renewals will be undertaken. Provision has been made for relaying the main track from Ignace to Fort William with hundred-pound steel. Later in the season it is expected that the same work can be undertaken between Winnipeg and Kenora."

With reference to additional branch line construction, announcement of this has been deferred until later in the season.

Don't Neglect Your Skin

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in creation. An imperfect complexion is caused by a sluggish liver.

Millions of people, old and young, and middle age, take them for Biliousness, Dizziness, Sick Headache, Upset Stomach and for Bile, Pimples and Itchy Skin. They end the misery of Constipation. Small Pill—Small Dose—Small Price

St. Lawrence Deep Waterway

Power Revenues Will Finance the Project and Not a Cent of Taxation Needed

Very interesting to the people of Western Canada in general, and to the farmers of the prairies in particular, is the statement recently issued from the headquarters of the St. Lawrence Deep Waterways Association of Western Canada, at Swift Current, when the executive director, A. S. Bennett, stated that the cost of the St. Lawrence Improvement would be entirely borne from revenues derived from the development and sale of power. This method of financing, he claimed, should entirely dissipate the fears, expressed in some quarters that the country could not stand the expense of this great undertaking at the present time, even though the economic returns were potentially enormous.

Mr. Bennett went on to say: "It has come to our attention that in a number of instances there has been a rather misleading impression conveyed to the public through newspaper articles in connection with the St. Lawrence project, whereas the facts are very plain. In a memorandum recently presented to the Premier, Hon. W. L. MacKenzie King, at Ottawa, Mr. O. E. Fleming, K.C., President of the Canadian Deep Waterways and Power Association of Toronto, presented a plan of financing the joint project through amortization of bonds guaranteed by the governments of Canada and the United States and bearing 3½ per cent. interest. It is well known that private capital is ready to invest in this undertaking at the above interest rate, and just as soon as definite arrangements are completed between the two countries, the work can be proceeded with without any outlay whatever from the national treasury. As a matter of fact, it will not cost the people of Canada one dollar, or increase the burden of taxation one cent; nor will the credit of the country on account of the capital debt be in any wise impaired, for, as Mr. Fleming points out in his memorandum, the scheme contemplates a revenue producing development of a natural resource that will finance itself.

"Since the project, therefore, is entirely a self-financing and self-supporting one, the united voice of the west should be heard for its commencement immediately, and its completion at the earliest possible date. Otherwise, we should not continue to complain about high transportation costs for our exportable products."

The executive director of the western association went on to say that he considers the Deep Waterway Improvement as the greatest economic project before the people of the Dominion of Canada today. The immediate savings and potential benefits were incalculable. Not only would there be a saving of from 8 to 11 cents per bushel on the farmer's grain, through the tramp steamers of the world being given a free seaway to the head of the lakes, but there would be a corresponding saving on other exportable products such as cattle, dairy products, etc.

But that was not all. Very advantageous savings would also be effected with regard to freight rates on incoming commodities from Eastern Canada and foreign countries.

"It is a well known fact," continued Mr. Bennett, "that ocean tramps regulate traffic charges on the high seas, and when an ocean water route is established through from the Atlantic to the head of the lakes, it would at once and for all time do away with lake shipping at the present time, and with regard to which a universal protest rends the heavens every summer and fall. At a very conservative estimate, there would be a direct saving of at least \$50,000,000 per year to the producers of Western Canada alone from the deepening of the canals to bring tide-water to the borders of our western wheat fields."

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Oil Refining Plant

Incorporated under a Dominion charter, with a capitalization of \$165,000, the Alberta Refineries, Limited, has purchased a site, comprising forty acres in Edmonton, for the establishment of an oil refining plant which is expected to be in operation by mid-summer.

THERE IS A TIME FOR EVERYTHING

THE time to have your HARNESS REPAIRED and OILED is RIGHT NOW, not when you are ready to hitch up for work in the field.

I have everything in shape to fix you up for a good start. My repair shop is complete in every way with the best of machinery, materials and workmanship READY FOR YOUR SERVICE.

I make a specialty of oiling harness. Each and every harness is taken apart and thoroughly scrubbed with brush, soap and water to remove all sweat and dirt before being soaked in the oil tank. Every loop and part of the harness gets its share of the oil, a thing impossible to do by hand oiling.

My charges for this thorough work are very moderate:

- Team harness \$3.00 per set
- Plough harness, without breeching, \$2.50
- Democrat harness \$2.50
- Buggy harness \$1.50.

If harness is clean I can oil them from \$1.00 up.

If you do your own repair work I can furnish you with HARNESS LEATHER, either cut stock or by the side; also HARNESS HARDWARE, thread, wax, etc.

Dealer in Harness and Harness Supplies

DIDSBURY, ALBERTA

WESTCOTT NOTES

As the old Westcott correspondent has left the country, as I am an old man and have nothing else to do this stormy day, thought I would at least let you know that Westcott is very much alive these days.

Sunday school and preaching services were not so largely attended as usual on Sunday several families attending the farewell sermon at the M. B. C. church in Didsbury.

A surprise party and shower was held for Mr. and Mrs. Scott at the home of Mr. and Mrs. Murphy last week. The newly married couple received many useful gifts and a good time was had by all.

As I am a weekly reader of the Pioneer, and always enjoy its news, was very much amused at the reading of the prizes the bonspiel men received. We Westcottites envy the man who is to receive the four hair cuts and four shaves as there are some in our district who could benefit by them.

Mrs. Ethel Klimck, one of Didsbury's teachers, is home for a week's vacation owing to the school having been closed on account of measles.

Norman Tuggle spent Sunday with the Hollquist brothers.

I understand the Westcott W. C. T. U. ladies are very much enraged about the petition that is being circulated in our fair town of Didsbury, knowing that those who are interested in liquor stores are not interested in the welfare of our boys and girls. Our aim should be to lift up rather than drag down.

Old Friend of Westcott.

STEVENS-BELL

A very pretty wedding took place on Wednesday afternoon, March 27, 1924, at the home of Mr. and Mrs. Frank L. Bell, when their daughter, Dorothy Gertrude, was united in holy matrimony to Frederick Allen Stevens of Didsbury. Rev. Joseph Lee performed the ceremony in the presence of several of the relatives and friends. The bride, who was given away by her brother, Mr. Jesse Bell, looked charming in a gown of baby blue messeline, and wore a veil of silk chiffon. The bridal bouquet consisted of pink and white carnations and Miss Edith Bell attended the bride while Mr. John Stevens supported the groom. After the ceremony a dainty buffet lunch was served.

Mr. and Mrs. Stevens left on the evening train for a short honeymoon in Calgary before taking up their residence in Didsbury.
